

Autumn One Term Year 3

English

In our English lessons, we will be exploring *The First Drawing*, a magical and wondrous tale set in the prehistoric era. The story's main character, a young boy with a vivid imagination, is believed to be the first artist, creating cave paintings that bring his world to life. This ties beautifully with our history lessons on Prehistory, allowing us to imagine what life might have been like for the earliest humans, blending creativity with our understanding of the past.

We are reading...

In our reading lessons, we will be exploring *Leon and the place between*, a captivating story that follows a young boy named Leon who finds himself in a mysterious realm located between reality and imagination. This enchanting tale beautifully blends fantasy with meaningful life lessons, making it a memorable journey for its readers.

Maths

In our math lessons, we will be mastering the skills of adding and subtracting numbers across tens and working with numbers up to 1,000. By practicing, we will gain a deeper understanding of place value and how numbers work together, which is essential as we continue to build our math skills.

Geography

In our geography lessons, we will be exploring the fascinating world of cities, with a special focus on London and other capital cities around the globe. We will look at what makes a city a capital, from its role in government and culture to its historical significance. By studying London, we've learned about its iconic landmarks and diverse neighborhoods.

Science

In our science lessons, we will be learning about skeletons and their vital role in the human body and other animals. We will explore how skeletons provide structure and support, protect vital organs, and enable movement through joints and muscles. By studying different types of skeletons, including those of humans and other creatures, we will gain a deeper understanding of how bones work together to form a strong yet flexible framework. This knowledge will help us appreciate the complexity of our own bodies and the incredible design of living organisms.

History

In our history lessons, we will be delving into the fascinating world of Prehistory, a time long before written records existed. We will explore how early humans lived, from the tools they crafted to the way they hunted and gathered food. We will learn about the development of early communities and how they gradually began to settle and form the first societies.

Art

In our Art lessons, we will be exploring the work of Barbara Hepworth, a renowned British sculptor known for her modern and abstract creations. We will study her unique approach to sculpture, where she often worked with materials like stone, wood, and bronze to create flowing, organic shapes that reflect the natural world. This unit will include using a coil technique to create a piece.

Music

In our music lessons, we will be learning the fundamentals of writing down music, a crucial skill for recording and sharing compositions. By practicing writing melodies and rhythms, we will gain a deeper understanding of how music is structured and how to convey our own musical thoughts.

French

In our French lessons, the children will be learning about culture within French speaking countries as well looking at feelings and greetings in French.

PSHE

In our PSHE lessons, we will be focusing on "Me and My Relationships," where we will explore the importance of understanding ourselves and building healthy connections with others, discussing how to communicate effectively, express our feelings, and listen to others with empathy. friendships to family bonds, and how to handle conflicts in a positive and respectful way.

Computing

In our computing lessons, we will be learning about Computing systems and networks as well as learning about self-image and identity in our E-safety sessions.

RE

In our RE lessons, we will be exploring what Christians believe about living a good life. We will be learning that for Christians, a good life is one that follows the teachings of Jesus, showing love, kindness, and compassion to others.

PE

Our PE day will be on a Tuesday. We will also have active enrichment on a Friday. These two days, the children should be in their PE kits. The children will be focusing on fundamental skills such as movement, balancing, co-ordinating and teamwork.
